Projects

Food Discovery & E-commerce Platform (afcfood.in) **June 2025**

- Engineered a full-stack food discovery platform featuring a Node.js/Express.js REST API and a dynamic React frontend styled with Tailwind CSS.
- Deployed the application live on an Ionos Ubuntu server to ensure realistic staging, high availability, and practical system administration.
- Integrated JSON Web Token (JWT) authentication and Google Login to secure user accounts, supporting consumer-focused features like a personalized wishlist and a dedicated admin panel for inventory management.

Custom Linux Development Environment & System Automation **August 2025**

- Architected a personalized, script-driven development environment from scratch on Arch Linux to optimize workflow and developer productivity, investing over 140 hours into system optimization.
- Authored over 2000 lines of custom shell scripts for system automation, package management, and dynamic theme switching.
- Managed all configurations (dotfiles) in a version-controlled GitHub repository using GNU Stow, enabling seamless replication across multiple machines.

Anime Music Streaming Application **January 2026**

- Developing a responsive, Spotify-like music streaming platform specifically designed to build community engagement around anime soundtracks.
- Implemented functional search mechanisms utilizing SQL 'LIKE' matching and asynchronous JavaScript ('fetch' and 'await') for seamless UI updates and API requests.

Certifications

Responsive Web Design Certification **January 2024**
FreeCodeCamp

Advanced Javascript and Node.js **July 2025**
Udemy

Achievements

- **RCS-CTF Cybersecurity Hackathon Participant** **Feb 2024**
  Collaborated with peers in a high-pressure environment to identify system vulnerabilities, demonstrating practical teamwork, adaptability, and problem-solving skills outside of regular coursework.
- **Competitive Programming Core Batch** **August 2025**
  Selected for a specialized competitive coding batch within the School of CSE, regularly participating in rigorous algorithmic testing and university-level programming challenges.

Skills

Technical Skills: C/C++, JavaScript, Node.js, Express, PostgreSQL, Linux System Administration, Bash Scripting.

Soft Skills: Problem-solving Skills, Communication Skills, Team Player, Time Management.

Education

Lovely Professional University **2023 - Present**
Bachelor of Technology in Computer Science; CGPA: 7.65 *Jalandhar, Punjab*

Shiv Jyoti Sr. Secondary School **2021 – 2022**
Intermediate; Percentage: 64% *Kota, Rajasthan*

Silver Bells Public School **2019 – 2020**
Matriculation; Percentage: 95% *Shamli, UP*
